Refrigerants, Naturally! for LIFE

SUSTAINABLE COOLING FOR EUROPE'S SMALL FOOD RETAIL STORES

STORE INVENTORY

FOR REFRIGERATION, AIR CONDITIONING AND HEAT PUMP APPLIANCES

This template helps you to record all appliances that you are currently using in your store. Creating an inventory list is an important step before making a purchasing decision on new refrigeration, air conditioning and heat pump (RACHP) appliances as you can **compare your current inventory to your needs** and will see wether both match or if there might be a change needed in your store equipment in order to operate your business more cost efficiently. Together with the document "**choosing the right equipment – checklist"** this document will make your decision on new equipment **much easier**!

Refrigerants, Naturally! for LIFE

Complementing information on technology and market developments can be found in the **technology guide**, information on the most relevant regulations can be looked up in the **policy guide**, and in-depth knowledge on all topics above including recommendations on WHAT equipment to choose, WHERE to best place it in the store and HOW to use it most energy efficiently can be gained through our **e-learning course** customized for your special needs as store owners. More information at: www.refnat4life.eu

BEFORE MAKING A PURCHASING DECISION ON NEW APPLIANCES, CONDUCT AN INVENTORY ASSESSMENT:

APPLIANCE TYPE	NUMBER IN STORE	REFRIGERANT TYPE	REFRIGERANT CHARGE	ANNUAL ENERGY CONSUMPTION	PURCHASE DATE
Example: Refrigerator	*3*	*R290*	*92g*	*493 kWh*	*10/06/2012*

The Refrigerants, Naturally! for LIFE project has received funding from the LIFE Programme of the European Union, project number: LIFE18 GIC/DE/001104
